Bedroom

"This color reminds me of tranquil ocean water. I use it in an eggshell finish on walls, the ceiling, and trim."

Porch

"I favor a peppier vibe with a zippy color like this on trim, doors, and railings. It's unexpected and contrasts with all the greens in the yard."

—Zoë Gowen, SL editor

Dining Room

"Paint all four walls this tropical green to evoke the feeling of a lush South Florida landscape. Choose a high-gloss finish for a dramatic touch."

—Elly Poston, SL editor

"We wanted the look of a tented ceiling without the hassle of fabric in this cabana-inspired family room. Striped in a flat finish on the ceiling, this cerulean blue brightens the entire room." —JENNY WOLF, SL Designer Network Member, New York City,
